

# CMMS CS-9810 DT Electric Lock Power Supply

## DC 12V 5A Power Supply Box for Access Control Systems

Professional power supply for access control installations

Fingerprint Readers

Proximity Card Readers

## Features

- ❖ Professional design, specifically made for access control system installations
- ❖ Utilizes quality electronic components for added safety and stability
- ❖ Multiple outputs to suit various installation requirements
- ❖ Capable of supplying power continuously for approximately 7 hours when used with CMMS NP7-12V/7AH Backup Battery (optional)

## Specifications

- ❖ Input Voltage: AC 220V
- ❖ Input Frequency: 50Hz
- ❖ Output Voltage: DC 12V (adjustable from 9V - 19V)
- ❖ Output Current: 5A
- ❖ Outputs: access control, electric locks, push button contacts
- ❖ Time Delay: 0.2 - 25 seconds (adjustable)
- ❖ Optional Accessories: CMMS NP7-12 12V/7AH Backup Battery
- ❖ Standard Design: Steel case with spray painted surface
- ❖ Safety Mechanism: Built-in short circuit protection
- ❖ Dimensions (W x H x D): 305 x 305 x 80 (mm)
- ❖ Weight: 4.2kg

## Applications

Weak current devices such as access control systems and electric locks.
