

CMMS SR204

4-Port DC 12V Professional CCTV Power Supply
with Individual Power Protection (Adjustable)

Overview

The CMMS SR204 is a CCTV power center engineered to manage remote camera and accessory power requirements. The CMMS SR204 distribution module is designed with 4 individually fused outputs for powering up to 4 CCTV cameras and accessories. It will provide DC 12V via distribution to four fused outputs with a total of 3 amps continuous supply current. The CMMS SR204 power center is housed in the premium lockable metal enclosure.

Features

- ❖ **Short Circuit Protection:** When short circuit condition occurs, individual PTC fuse will open the circuit. When the short circuit condition is cleared, PTC fuse will automatically back to close status.
- ❖ **High Voltage Protection:** When high voltage condition occurs, the surge protector will regulate the voltage to protect the connected device.
- ❖ **Over Current Protection:** When over current condition occurs, the power supply will automatically switch to self-protection mode. When the over current condition is cleared, power supply will switch back to normal mode.

Specifications

- ❖ **Input Voltage:** AC 100V - 240V
- ❖ **Input Frequency:** 50Hz - 60Hz
- ❖ **Output Voltage:** DC 10.8V - 13.5V ($\pm 5\%$)
- ❖ **Output Port:** 4
- ❖ **Total Output Current:** 3A
- ❖ **Single Maximum Output Current:** 1.1A
- ❖ **Dimensions (W x H x D):** 162 x 162 x 48 (mm)
- ❖ **Weight :** 0.95KG

Application

CCTV Camera, Access Control System, Door Lock etc.
