

CMMS SR209A

9-Port AC 24V Professional CCTV Power Supply

Overview

The CMMS SR209A is a CCTV power center engineered to manage remote camera and accessory power requirements. The CMMS SR209A distribution module is designed with 9 individually PTC fused outputs for powering up to 9 CCTV cameras and accessories. It will provide AC 24V via distribution to nine fused outputs with a total of 12.5 Amps continuous supply current. The CMMS SR209A power center is housed in the premium lockable metal enclosure.

Features

- ❖ **Independent PTC fuse and LED indicator for each output port**
- ❖ **Short Circuit Protection :** When short circuit condition occurs, individual PTC fuse will open the circuit. When the short circuit condition is cleared, PTC fuse will automatically back to close status.
- ❖ **High Voltage Protection :** When high voltage condition occurs, the surge protector will regulate the voltage to protect the connected device.
- ❖ **Over Current Protection :** When over current condition occurs, the power supply will automatically switch to self-protection mode. When the over current condition is cleared, power supply will switch back to normal mode.

Specifications

- ❖ **Input Voltage :** AC 220V
- ❖ **Input Frequency :** 50Hz - 60Hz
- ❖ **Output Voltage :** AC 24V \pm 5%
- ❖ **Output Port :** 9
- ❖ **Total Output Current :** 12.5A
- ❖ **Dimensions (W x H x T) :** 205 x 300 x 90 (mm)
- ❖ **Weight :** 5.26KG

Application

CCTV Camera, CCTV Surveillance Equipment.
