

CMMS SR209S

9-Port DC 12V Professional CCTV Power Supply

Overview

The CMMS SR209S is a CCTV power center engineered to manage remote camera and accessory power requirements. The CMMS SR209S distribution module is designed with 9 individually fused outputs for powering up to 9 CCTV cameras and accessories. It will provide DC12V via distribution to nine fused outputs with a total of 12.5 Amps continuous supply current. The CMMS SR209S power center is housed in the premium lockable metal enclosure.

Features

- ❖ **Independent PTC fuse and LED indicator for each output port**
- ❖ **Short Circuit Protection** : When short circuit condition occurs, individual PTC fuse will open the circuit. When the short circuit condition is cleared, PTC fuse will automatically back to close status.
- ❖ **High Voltage Protection** : When high voltage condition occurs, the surge protector will regulate the voltage to protect the connected device.
- ❖ **Over Current Protection** : When over current condition occurs, the power supply will automatically switch to self-protection mode. When the over current condition is cleared, power supply will switch back to normal mode.

Specifications

- ❖ **Input Voltage** : AC 176V - 264V
- ❖ **Input Frequency** : 50Hz - 60Hz
- ❖ **Output Voltage** : DC 12V \pm 5%
- ❖ **Output Port** : 9
- ❖ **Total Output Current** : 15A
- ❖ **Single Maximum Output Current** : 2A
- ❖ **Dimensions (W x H x T)** : 300 x 205 x 90(mm)
- ❖ **Weight** : 2.2KG

Application

CCTV Camera, CCTV Surveillance Equipment.
